### Summary/Objective

---

Drawing on a decade of experience as a chef, I have seamlessly translated numerous skills from the vibrant restaurant industry into the realm of software development. By harnessing my unwavering commitment to precision, effective communication, and adept problem-solving honed during my culinary journey, I've adeptly surmounted challenges as an engineer during the application development process.

### Skills

---

- Python/Pytest
- HTML/CSS
- JavaScript/Node.js/Jest
- React
- OOP
- RESTful APIs
- SQL/PostgreSQL
- Flask

### Projects

---

#### WEATHER REPORT

- A real time temperature and weather website using API calls, JavaScript, HTML, CSS, DOM manipulation, Axios, and Event Handling
- <https://github.com/jdanielle12/weather-report>

#### TASK LIST API

- A web API to organize tasks, with the ability to sort tasks, mark complete tasks, and get feedback via Slack. Working with Flask to create models while using Python to call an API inside of an API, Render and Postman.
- <https://github.com/jdanielle12/task-list-api>

#### SWAP MEET

- Python focused Backend logic built to swap items between different inventories by importing modules, creating classes with attributes and instance methods and implementing inheritance.
- <https://github.com/jdanielle12/swap-meet>

### Education/Organizations

---

#### ADA Developers Academy - 2023

An 11-month training program with a 10% acceptance rate that provided 2,000+ hours of instruction on Python/Pytest, JavaScript/Node.js/Jest, React, HTML/CSS, RESTful APIs, Flask, SQL/PostgreSQL, OOP concepts, and computer science fundamentals.

#### Rewriting The Code - Black Wings Member - 2023

Rewriting the Code is a registered 501(c)(3) non-profit organization which supports and empowers college, graduate and early career women in tech, through intersectional communities, mentorship, industry experience and educational resources, to become the next generation of engineers and tech leaders.

#### Denver Roller Derby - Member, Skater & DEI Representative - 2021

### Certifications

---

Full Stack Developer Certificate - 2023

Information Technology - 2023

Project Management Certification - 2023

Python 2 Certificate - 2022
